DMG, 0000-0003-0956-0103

The Editors of *Open Biology* would like to thank all reviewers who have worked on articles published in the journal in 2016. We appreciate that most reviewers value recognition of their efforts by the journal and through services such as *Publons*, which is partnered with *Open Biology*.

To provide an opportunity for recognition, we list the names of all reviewers (who opted for inclusion). This article is made permanent and citeable by its digital object identifier (DOI). We encourage you to quote your contribution in your applications for tenure and grants or other forms of research assessment. Where you have provided it, we have included your ORCID so your contribution can be unambiguously assigned to you.
